

CEN/CENELEC Workshop on Radio Equipment Directive, and its implications for standardization

The CEN/CENELEC is inviting interested parties to attend a Workshop on the [Radio Equipment Directive](#) (RED) and its implications for standardization. The purpose of the Workshop, which will be held in Brussels on Thursday, 28 January 2016, is to build a common understanding of the impact of the RED on European Standardization, including the relation with the Low Voltage Directive and the EMC Directive.

For more information on the Workshop, please contact Brian Abbott at the National Standards Authority of Ireland (NSAI), tel. 01 8073800 or email brian.abbott@nsai.ie.

Workshop
Radio Equipment Directive
and its implications for standardization

When: 28 January 2016
